

Jaipur Military Station conservancy services & Door to door Garbage collection

SATYA is processing to implement a specialized health and hygiene program for the residents of military area, in the vicinity of Jaipur. It is being initiated with the solid waste management through door-to-door segregated waste collection in the area for further eco-friendly procedures, recycling, and by-production. This is likely to be clubbed together with more welfare and development all activities.

Training

Satya organized training and briefing for the *administrative staff of Army* on “Solid Waste Management Rules 2000 and Its Implementation” to make them understand and oriented towards the serious and practical implementation and the importance of the rules. During the training, **Area Commander R. S. Bhandari**, Sub-area commander Mr. Lalotra, SSO conservancy services, etc. were also present.

For implementation of any act or rules, it is essential that the implementing agency or authority as well as beneficiary have its knowledge and know-how in behavioral manner.

Awareness and Satya Efforts: an effort toward health & Hygiene

Ward20 /door to door

The task of solid waste and garbage collection is being executed, at the behest of the municipal corporation (JMC), in civil areas as ward #20 of Jaipur.

The Satya experience is open to be replicated in advanced urban and rural infrastructure development, alongwith the government, and also mandated by the Hon'ble Supreme Court.
